Dear Ms. Hesse,

Our chamber finds the ongoing pursuit of Microsoft through litigation a very bad precedent to set for business in America. Microsoft has succeeded on a global scale and revolutionized the way America, and the world does business.

The business community has always supported the government in actions that best serve the interests of the nation. With that in mind we ask you to take the settlement now on the table between Microsoft and the Federal Government. Ultimately, this long and expensive law suit is proving detrimental to Microsoft, tax payers and for the business community at large. You have the opportunity to bring it to a close. Again we strongly urge you to accept the settlement.

Thank you for your time on this issue.

Sincerely,

Antonio Gastelum
